

MexBS Dynamic Tier v1.0.0 User Guide

Welcome to the MexBs family, and thank you for purchasing the "Dynamic Tier v1.0.0" magento extension! In this document we will guide you through the installation steps, and will show you how to use and get the maximum from your extension.

Installation

Before we begin, please ensure that you have a backup of your data before proceeding with the installation of the extension. This is because although we will make our best to support you, we cannot take responsibility of any data loss that might occur during the installation/adjustments of this extension.

- [1] Unpack the Mexbs_DynamicTier_v1.0.0.zip file.
- [2] Go to Mexbs_DynamicTier_v1.0.0/extension_files.
Copy the content of this directory into your Magento installation directory.
- [3] Connect via SSH and go to your Magento root directory
- [4] Determine the mode that your Magento is running on, by running the following command:

```
php bin/magento deploy:mode:show
```

- [5] If you are in **developer** or **default** mode, run the following commands:

```
php bin/magento module:enable Mexbs_DynamicTier --clear-static-content  
php bin/magento setup:upgrade  
php bin/magento setup:static-content:deploy
```

- [6] If you are in **production** mode, run the following commands:

```
php bin/magento module:enable Mexbs_DynamicTier --clear-static-content  
php bin/magento setup:upgrade  
php bin/magento setup:di:compile  
php bin/magento setup:static-content:deploy
```

- [7] Go to the admin panel – “System->Cache Management” and click “Flush Magento Cache”.

Tutorial #2 – mass updating the tier prices using "Update Attributes"

In this tutorial we will mass update the tier prices of "Affirm Water Bottle" and "Dual Handle Cardio Ball" products as following –

- Quantity of 2 with 5% discount
- Quantity of 3 with 15% discount

Step 1: tick the products in the product grid

Go to the Admin panel → Products → Catalog, and tick the checkboxes of the "Affirm Water Bottle" and "Dual Handle Cardio Ball" products. Afterwards, in the "Actions" drop down on the top left, click "Update Attributes" -

Important: Make sure that the “Change” checkbox is ticked. Otherwise the tier prices fields won’t get updated.

Click “Save”.

Step 3: flushing the Page Cache and the Block HTML Cache

After the save, the system will tell you that two of the caches got invalidated – Full Page Cache and Block Cache. You need to flush them in order to see the tier price changes in the frontend.

In order to flush them go to Admin panel → System → Cache Management.

Tick the “Block HTML output” and “Page Cache” checkboxes, choose “Refresh” in the actions drop down and click “Submit” -

Free software updates

From time to time we are going to release some cool updates for your extension. And you will get those updates for free! Currently we are working on upgrading our website, in order to make the software updates appear directly in your customer account. But for now, you will get the software updates by email on demand (because we don't want to spam you), or every time there is new release (if it's ok for you to be spammed by good software ;)).

Don't forget to send your feedback!

Every feedback is good for us! Please send us your feedback to sales@mexbs.com or write it directly in the reviews section on the product page. It will be a pleasure for us to hear your opinion!

Enjoy your extension!
